

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017				2018				Cumulative Management Actions/Outcomes																																		
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun		Oct	Dec																																
1. Prevent Overfishing (Maintain Sustainable Harvest)	1. Adopt conservative harvest levels for multi-species and single species fisheries and specify optimum yield.	Ongoing - SAFE and Annual specifications											FMP amendments related to this goal statement <table border="1"> <tr> <td>105</td> <td>BSAI</td> <td>2014</td> <td>Provided flexibility for flatfish specifications</td> </tr> <tr> <td>100/91</td> <td>BSAI/GOA</td> <td>2014</td> <td>Included grenadiers in the Ecosystem Component category</td> </tr> <tr> <td>86/76</td> <td>BSAI/GOA</td> <td>2012</td> <td>Restructured Observer Program to reduce statistical bias</td> </tr> <tr> <td>95/87</td> <td>BSAI/GOA</td> <td>2010</td> <td>Incorporated ACL requirements, Move "other species" to target category, Create Ecosystem Component category</td> </tr> <tr> <td>79</td> <td>GOA</td> <td>2008</td> <td>OFL/ABC process for "other species"</td> </tr> <tr> <td>69</td> <td>GOA</td> <td>2006</td> <td>Established TAC process for "other species"</td> </tr> <tr> <td>63</td> <td>GOA</td> <td>2004</td> <td>Moved skates to target category</td> </tr> <tr> <td>48/48</td> <td>BSAI/GOA</td> <td>2004</td> <td>Established current harvest specifications process</td> </tr> </table> Regulatory amendments related to this goal statement <ul style="list-style-type: none"> • Annual specifications for setting harvest levels Other management actions related to this goal statement <ul style="list-style-type: none"> • Regular Center for International Experts reviews for stock assessments and harvest strategies • Ongoing work on accounting for uncertainty in control rules • Council policy and ongoing discussion of spatial management for stocks 	105	BSAI	2014	Provided flexibility for flatfish specifications	100/91	BSAI/GOA	2014	Included grenadiers in the Ecosystem Component category	86/76	BSAI/GOA	2012	Restructured Observer Program to reduce statistical bias	95/87	BSAI/GOA	2010	Incorporated ACL requirements, Move "other species" to target category, Create Ecosystem Component category	79	GOA	2008	OFL/ABC process for "other species"	69	GOA	2006	Established TAC process for "other species"	63	GOA	2004	Moved skates to target category	48/48	BSAI/GOA	2004	Established current harvest specifications process
	105	BSAI	2014	Provided flexibility for flatfish specifications																																									
	100/91	BSAI/GOA	2014	Included grenadiers in the Ecosystem Component category																																									
	86/76	BSAI/GOA	2012	Restructured Observer Program to reduce statistical bias																																									
	95/87	BSAI/GOA	2010	Incorporated ACL requirements, Move "other species" to target category, Create Ecosystem Component category																																									
	79	GOA	2008	OFL/ABC process for "other species"																																									
69	GOA	2006	Established TAC process for "other species"																																										
63	GOA	2004	Moved skates to target category																																										
48/48	BSAI/GOA	2004	Established current harvest specifications process																																										
2. Continue to use the optimum yield caps for the BSAI and GOA groundfish fisheries.	Ongoing - Annual specifications																																												
3. Provide for adaptive management by continuing to specify optimum yield as a range.	Ongoing - Annual specifications																																												
4. Provide for periodic reviews of the adequacy of F ₄₀ and adopt improvements, as appropriate.	Ongoing - AFSC responds to CIE reviews as part of specs process																																												
5. Continue to improve the management of species through species categories.	2009 - BSAI skates TAC breakout 2010 - Ecosystem component created 2014 - Grenadiers to EC 2015 -Working paper on uncertainty in control rules tasked																																												
	2015 -BSIERP MSE modeling underway																																												
	Ongoing – Spatial management policy guides species complex and subarea considerations																																												
	Ongoing - Squid to EC																																												
2. Promote Sustainable Fisheries and Communities	6. Promote conservation while providing for optimum yield in terms of the greatest overall benefit to the nation with particular reference to food production, and sustainable opportunities for recreational, subsistence, and commercial fishing participants and fishing communities. 7. Promote management measures that, while meeting conservation objectives, are also designed to avoid significant disruption of existing social and economic structures. 8. Promote fair and equitable allocation of identified available resources in a manner such that no particular sector, group or entity acquires an excessive share of the privileges. 9. Promote increased safety at sea.	These considerations are applied to all management actions.										These objectives represent standards that either separately or in combination apply to virtually all of the discussion, deliberation, and action taken by the Council.																																	

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017				2018				Cumulative Management Actions/Outcomes			
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun		Oct	Dec	
3. Preserve Food Web (Ecosystem Approach)	10. Develop indices of ecosystem health as targets for management.	2015 - GOA Ecosystem Report Card												<p>Other management actions related to this goal statement</p> <ul style="list-style-type: none"> • Uncertainty and ecosystem considerations taken into account during stock assessment and harvest specifications • Ecosystem indices reported and assessed in annual ecosystem SAFE report • Adoption of the Aleutian Islands Fishery Ecosystem Plan, and development of a Bering Sea Fishery Ecosystem Plan • Development of ecosystem synthesis reports for the Bering Sea and the Aleutian Islands ecosystem areas, and ongoing development of report for the Gulf of Alaska • Adoption, as Council policy, of an ecosystem vision statement
		Ongoing - Ecosystem SAFEs, report cards presented annually												
		Pending – BS FEP will include ecosystem indicators and triggers												
		EFH 5 year Review												
	11. Improve the procedure to adjust acceptable biological catch levels as necessary to account for uncertainty and ecosystem factors.	Pending - Working paper on uncertainty in control rules - awaiting NS Guidelines revisions												
		Ongoing - BSIERP MSE modeling												
	12. Continue to protect the integrity of the food web through limits on harvest of forage species.	Ongoing - Herring PSC limits specified annually												
13. Incorporate ecosystem-based considerations into fishery management decisions, as appropriate.	2007 - FEP and brochure published 2011 - AI ecosystem assessment developed 2014 – Ecosystem Vision Statement 2015 - BS FEP													
	Ongoing – Ecosystem SAFE													

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017				2018				Cumulative Management Actions/Outcomes																																										
			Feb	Apr	Jun	Oct	Feb	Apr	Jun	Oct																																											
4. Manage Incidental Catch and Reduce Bycatch and Waste	14. Continue and improve current incidental catch and bycatch management program.	2011 - National Bycatch Report 2013 - Restructured Obs. Program 2015 - Bycatch limits for BS Chinook revised - pending rulemaking Ongoing - Halibut Management Framework											<p>FMP amendments related to this goal statement</p> <table border="1"> <tr> <td>110</td> <td>BSAI</td> <td>2016</td> <td>● Established Chinook and chum salmon PSC avoidance measures</td> </tr> <tr> <td>111</td> <td>BSAI</td> <td>2016</td> <td>● Reduced PSC limits for halibut</td> </tr> <tr> <td>79</td> <td>BSAI</td> <td>2014</td> <td>● Established groundfish retention standard</td> </tr> <tr> <td>84/91</td> <td>BSAI/GOA</td> <td>2014</td> <td>● Established Bering Sea Chinook salmon bycatch restrictions</td> </tr> <tr> <td>94/89</td> <td>BSAI/GOA</td> <td>2012</td> <td>● Established trawl sweep elevation requirement in the flatfish fisheries</td> </tr> <tr> <td>89</td> <td>GOA</td> <td>2010</td> <td>● Established GOA area closures to reduce tanner crab bycatch</td> </tr> <tr> <td>93/97</td> <td>BSAI/GOA</td> <td>2008</td> <td>● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-</td> </tr> <tr> <td>95</td> <td>GOA</td> <td>2006</td> <td>● Reduced PSC limits for GOA halibut</td> </tr> <tr> <td>86/76</td> <td>BSAI/GOA</td> <td>2004</td> <td>● Restructured observer program to reduce statistical bias</td> </tr> <tr> <td>103</td> <td>BSAI/GOA</td> <td>2004</td> <td>● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone</td> </tr> </table> <p>Regulatory amendments related to this goal statement</p> <ul style="list-style-type: none"> ● Annual specifications for setting prohibited species limits ● Revisions to MRAs ● Revision to regulations for prohibited species donation program and fishmeal <p>Other management actions related to this goal statement</p> <ul style="list-style-type: none"> ● Upcoming discussion paper on BSAI crab bycatch ● Council encourages research through annual research priorities ● NMFS and observer program work on improving statistical methods for bycatch accounting (as part of National Bycatch Report initiative) ● Development of a halibut management framework 	110	BSAI	2016	● Established Chinook and chum salmon PSC avoidance measures	111	BSAI	2016	● Reduced PSC limits for halibut	79	BSAI	2014	● Established groundfish retention standard	84/91	BSAI/GOA	2014	● Established Bering Sea Chinook salmon bycatch restrictions	94/89	BSAI/GOA	2012	● Established trawl sweep elevation requirement in the flatfish fisheries	89	GOA	2010	● Established GOA area closures to reduce tanner crab bycatch	93/97	BSAI/GOA	2008	● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-	95	GOA	2006	● Reduced PSC limits for GOA halibut	86/76	BSAI/GOA	2004	● Restructured observer program to reduce statistical bias	103	BSAI/GOA	2004	● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone
		110	BSAI	2016	● Established Chinook and chum salmon PSC avoidance measures																																																
	111	BSAI	2016	● Reduced PSC limits for halibut																																																	
	79	BSAI	2014	● Established groundfish retention standard																																																	
	84/91	BSAI/GOA	2014	● Established Bering Sea Chinook salmon bycatch restrictions																																																	
	94/89	BSAI/GOA	2012	● Established trawl sweep elevation requirement in the flatfish fisheries																																																	
	89	GOA	2010	● Established GOA area closures to reduce tanner crab bycatch																																																	
	93/97	BSAI/GOA	2008	● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-																																																	
	95	GOA	2006	● Reduced PSC limits for GOA halibut																																																	
	86/76	BSAI/GOA	2004	● Restructured observer program to reduce statistical bias																																																	
103	BSAI/GOA	2004	● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone																																																		
Ongoing - Review of Obs. Annual Deployment Plan																																																					
15. Develop incentive programs for bycatch reduction including the development of mechanisms to facilitate the formation of bycatch pools, vessel bycatch allowances, or other bycatch incentive systems.	Ongoing - Halibut Management Framework																																																				
	Ongoing - Halibut deck sorting EFP																																																				
16. Encourage research programs to evaluate current population estimates for non-target species with a view to setting appropriate bycatch limits, as information becomes available.	Ongoing – Included in research priorities Ongoing - Use of Three River Index Ongoing - Salmon genetics work Ongoing – Forage fish included in Ecosystem SAFE Ongoing – Halibut Management Framework																																																				
	17. Continue program to reduce discards by developing management measures that encourage the use of gear and fishing techniques that reduce bycatch which includes economic discards.	2007 - Partially addressed by arrowtooth MRA analyses for GOA 2010 - Partially addressed by arrowtooth MRA analyses for BSAI Ongoing - Halibut management framework Ongoing - Partially addressed in rockfish program Ongoing - Partially addressed in Council’s Spatial Mgmt Policy																																																			
		18. Continue to manage incidental catch and bycatch through seasonal distribution of total allowable catch and geographical gear restrictions.	2007 - GOA area closures to reduce bairdi crab bycatch 2009 - Trawl sweep elevation requirement in the flatfish fisheries Ongoing – Halibut Management Framework																																																		
			2011 - National Bycatch Report 2013 - Restructured Obs. Program Ongoing – Halibut Management Framework																																																		
19. Continue to account for bycatch mortality in total allowable catch accounting and improve the accuracy of mortality assessments for target, prohibited species catch, and noncommercial species.	Ongoing – Review of Obs. Annual Deployment Plan																																																				
	2016 - Alternative Halibut DMR calculation methods																																																				
	20. Control the bycatch of prohibited species through prohibited species catch limits or other appropriate measures.	2009 - Partially addressed in BS Chinook bycatch EIS 2010 - Kodiak Tanner crab closures 2011, 2013 - GOA pollock and non-pollock Chinook PSC limits 2012 - GOA halibut PSC limit reduction 2014 - Template for BSAI crab bycatch limits initiated 2015 - Partially addressed in BS salmon bycatch analyses 2015 - Bycatch limits for BS Chinook revised - pending rulemaking Ongoing - revised PSC limits for BS Chinook																																																			
2015 - Halibut abundance-based PSC interagency paper																																																					
21. Reduce waste to biologically and socially acceptable levels.		Ongoing - bycatch management through PSC limits and other actions Ongoing – Halibut Management Framework																																																			

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017					2018					Cumulative Management Actions/Outcomes																						
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun	Oct	Dec																							
5. Reduce and Avoid Impacts to Seabirds and Marine Mammals	22. Continue to cooperate with U.S. Fish and Wildlife Service (USFWS) to protect ESA-listed species, and if appropriate and practicable, other seabird species.	2008 - Avoidance measures in area 4E 2015 - Re-consultation for short-tailed albatross													FMP amendments related to this goal statement <table border="1"> <tr> <td>107</td> <td>BSAI</td> <td>2014</td> <td>● Walrus protection and transit corridors around Round Island and Cape Pierce</td> </tr> </table> Regulatory amendments related to this goal statement <ul style="list-style-type: none"> ● Revisions to seabird avoidance measures, including in Area 4E ● Revisions to Steller sea lion closures for pollock and cod fisheries in the GOA ● Revisions to Steller sea lion protection measures for Atka mackerel, Pacific cod, and pollock fisheries in the Aleutian Islands ● Designation of critical habitat for Cook Inlet beluga whale Other management actions related to this goal statement <ul style="list-style-type: none"> ● ESA consultations on fishery impacts on listed seabirds and marine mammals ● Council receives protected species report at each meeting, monitoring issues with seabirds and marine mammals ● Reconsideration of Steller sea lion closures in 2014 biological opinion and 2014 EIS 	107	BSAI	2014	● Walrus protection and transit corridors around Round Island and Cape Pierce																
	107	BSAI	2014	● Walrus protection and transit corridors around Round Island and Cape Pierce																															
	23. Maintain or adjust current protection measures as appropriate to avoid jeopardy of extinction or adverse modification to critical habitat for ESA-listed Steller sea lions.	Ongoing – SSL EIS regs in place 2014 – Updated SSL BiOp 2011 - SSL BiOp Pending - SSL Critical Habitat proposed rule																																	
	24. Encourage programs to review status of endangered or threatened marine mammal stocks and fishing interactions and develop fishery management measures as appropriate.	Ongoing - Monitoring through the Protected Species Report																																	
25. Continue to cooperate with NMFS and USFWS to protect ESA-listed marine mammal species, and if appropriate and practicable, other marine mammal species.	Ongoing - Monitoring through the Protected Species Report																																		
6. Reduce and Avoid Impacts to Habitat	26. Review and evaluate efficacy of existing habitat protection measures for managed species.	2012 - Council's EFH Consultation Policy 2014 - Partially addressed in crab bycatch limits disc. paper 2016 - EFH 5 year review, fishing effects model													FMP amendments related to this goal statement <table border="1"> <tr> <td>104</td> <td>BSAI</td> <td>2015</td> <td>● Designated skate nurseries in Bering Sea as HAPC</td> </tr> <tr> <td>98/90</td> <td>BSAI/GOA</td> <td>2012</td> <td>● Updated EFH information with findings from the 2010 EFH 5-year review</td> </tr> <tr> <td>94/89</td> <td>BSAI/GOA</td> <td>2010</td> <td>● Established trawl sweep elevation requirement in the flatfish fisheries</td> </tr> <tr> <td>89</td> <td>BSAI</td> <td>2008</td> <td>● Established Bering Sea Habitat Conservation area closures for non-pelagic trawling</td> </tr> <tr> <td>78/73 65/65</td> <td>BSAI/GOA</td> <td>2006</td> <td>● HAPC and EFH amendments, and associated fishery area closures in the GOA</td> </tr> </table> Other management actions related to this goal statement <ul style="list-style-type: none"> ● Discussion of protected areas for Bering Sea canyons ● Discussion paper resulting from EFH 5-year review to look at groundfish impacts on crab EFH (especially red king crab in southwestern Bristol Bay) ● Ongoing 2015 EFH 5-year review, including updates to fishing effects model and EFH descriptions ● Discussion of a Northern Bering Sea Research Area Research Plan (subsequently tabled) ● Council discussion regarding nominating Alaska MPAs to national MPA center register (tabled) ● Council encourages research through annual research priorities 	104	BSAI	2015	● Designated skate nurseries in Bering Sea as HAPC	98/90	BSAI/GOA	2012	● Updated EFH information with findings from the 2010 EFH 5-year review	94/89	BSAI/GOA	2010	● Established trawl sweep elevation requirement in the flatfish fisheries	89	BSAI	2008	● Established Bering Sea Habitat Conservation area closures for non-pelagic trawling	78/73 65/65	BSAI/GOA	2006	● HAPC and EFH amendments, and associated fishery area closures in the GOA
	104	BSAI	2015	● Designated skate nurseries in Bering Sea as HAPC																															
	98/90	BSAI/GOA	2012	● Updated EFH information with findings from the 2010 EFH 5-year review																															
	94/89	BSAI/GOA	2010	● Established trawl sweep elevation requirement in the flatfish fisheries																															
	89	BSAI	2008	● Established Bering Sea Habitat Conservation area closures for non-pelagic trawling																															
78/73 65/65	BSAI/GOA	2006	● HAPC and EFH amendments, and associated fishery area closures in the GOA																																
27. Identify and designate essential fish habitat and habitat areas of particular concern pursuant to Magnuson-Stevens Act rules, and mitigate fishery impacts as necessary and practicable to continue the sustainability of managed species.	2007 - BS habitat closures 2007 - Included in research priorities 2008 - NBSRA established 2009 - BS flatfish trawl sweep mods required 2011 - EFH 5-year review and Omnibus Amds approved 2011 - HAPC cycle changed to 5 years 2011 - Discussion paper initiated 2012 - NBSRA plan halted 2013 - HAPC skate nurseries adopted 2014 - Crab bycatch limits discussion paper addresses BBRKC 2015 – Fishery overlap with Pribilof corals 2016 - EFH 5 year review																																		
28. Develop a Marine Protected Area policy in coordination with national and state policies.	Ongoing - Actions are developed complementary to Federal MPA Center and AK																																		
29. Encourage development of a research program to identify regional baseline habitat information and mapping, subject to funding and staff availability.	Ongoing EFH 5-year reviews, including updates to fishing effects model and EFH descriptions Ongoing – (related) Extensive mapping program through NMFS Habitat Division																																		
30. Develop goals, objectives and criteria to evaluate the efficacy and suitable design of marine protected areas and no-take marine reserves as tools to maintain abundance, diversity, and productivity. Implement marine protected areas if and where appropriate.	Ongoing - Addressed in purpose and need for individual actions																																		

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017				2018				Cumulative Management Actions/Outcomes																																																																										
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun		Oct	Dec																																																																								
7. Promote Equitable and Efficient Use of Fishery Resources	31. Provide economic and community stability to harvesting and processing sectors through fair allocation of fishery resources.	2009-2012 Numerous sector allocations: e.g., Pcod, flatfish, POP, Atka mackerel 2010 Central GOA Rockfish Pgm 2014 - Small boat CDQ Pcod 2015 - Longline pots for sablefish 2015 - AI Pcod shoreplant delivery requirement											FMP amendments related to this goal statement <table border="1"> <tr><td>101</td><td>GOA</td><td>2016</td><td>● Allow use of longline pots for sablefish</td></tr> <tr><td>109</td><td>BSAI</td><td>2016</td><td>● Allow for a small boat CDQ Pacific cod fishery</td></tr> <tr><td>113</td><td>BSAI</td><td>2016</td><td>● AI Pcod catcher vessel fishery and shoreplant delivery requirement</td></tr> <tr><td>106</td><td>BSAI</td><td>2014</td><td>● AFA vessel replacement</td></tr> <tr><td>102</td><td>BSAI</td><td>2014</td><td>● Implement a CQE program for sablefish in the BSAI</td></tr> <tr><td>94,96</td><td>GOA</td><td>2013, 2014</td><td>● Revisions to GOA CQE program entities, revise vessel use caps, allow purchase of small blocks</td></tr> <tr><td>99</td><td>BSAI</td><td>2013</td><td>● BSAI freezer longline maximum length overall adjustment</td></tr> <tr><td>85/83</td><td>BSAI/GOA</td><td>2011</td><td>● Sector allocations for Pacific cod</td></tr> <tr><td>86</td><td>GOA</td><td>2010</td><td>● Fixed gear endorsement in GOA</td></tr> <tr><td>78,85,88</td><td>GOA</td><td>2009, 2011</td><td>● Rockfish Program revisions; new program authorized</td></tr> <tr><td>80,90,93,97</td><td>BSAI</td><td>2007-2012</td><td>● Vessel replacement and cooperative revisions</td></tr> <tr><td>82,92 / 86</td><td>BSAI/GOA</td><td>2005-2010</td><td>● Latent licenses rescinded</td></tr> <tr><td>62/62</td><td>BSAI/GOA</td><td>2009</td><td>● Revise the BSAI FMP description of the CV Operational Area and remove sunset date for inshore/offshore sector allocations of pollock and Pacific cod in GOA</td></tr> <tr><td>62</td><td>GOA</td><td>2009</td><td>● IFQ B quota shareholders can fish on any size vessel</td></tr> <tr><td>72</td><td>GOA</td><td>2008</td><td>● IRIU rescinded in GOA for shallow water flatfish</td></tr> <tr><td>80</td><td>BSAI</td><td>2007</td><td>● Sector allocations and cooperative formation for 3 flatfish species, POP, and Atka mackerel in BSAI</td></tr> <tr><td>68</td><td>GOA</td><td>2006</td><td>● Cooperative program for rockfish in central GOA</td></tr> <tr><td>82</td><td>BSAI</td><td>2005</td><td>● AI pollock to the Aleut Corporation</td></tr> </table>	101	GOA	2016	● Allow use of longline pots for sablefish	109	BSAI	2016	● Allow for a small boat CDQ Pacific cod fishery	113	BSAI	2016	● AI Pcod catcher vessel fishery and shoreplant delivery requirement	106	BSAI	2014	● AFA vessel replacement	102	BSAI	2014	● Implement a CQE program for sablefish in the BSAI	94,96	GOA	2013, 2014	● Revisions to GOA CQE program entities, revise vessel use caps, allow purchase of small blocks	99	BSAI	2013	● BSAI freezer longline maximum length overall adjustment	85/83	BSAI/GOA	2011	● Sector allocations for Pacific cod	86	GOA	2010	● Fixed gear endorsement in GOA	78,85,88	GOA	2009, 2011	● Rockfish Program revisions; new program authorized	80,90,93,97	BSAI	2007-2012	● Vessel replacement and cooperative revisions	82,92 / 86	BSAI/GOA	2005-2010	● Latent licenses rescinded	62/62	BSAI/GOA	2009	● Revise the BSAI FMP description of the CV Operational Area and remove sunset date for inshore/offshore sector allocations of pollock and Pacific cod in GOA	62	GOA	2009	● IFQ B quota shareholders can fish on any size vessel	72	GOA	2008	● IRIU rescinded in GOA for shallow water flatfish	80	BSAI	2007	● Sector allocations and cooperative formation for 3 flatfish species, POP, and Atka mackerel in BSAI	68	GOA	2006	● Cooperative program for rockfish in central GOA	82	BSAI	2005	● AI pollock to the Aleut Corporation
		101	GOA	2016	● Allow use of longline pots for sablefish																																																																																
	109	BSAI	2016	● Allow for a small boat CDQ Pacific cod fishery																																																																																	
	113	BSAI	2016	● AI Pcod catcher vessel fishery and shoreplant delivery requirement																																																																																	
	106	BSAI	2014	● AFA vessel replacement																																																																																	
102	BSAI	2014	● Implement a CQE program for sablefish in the BSAI																																																																																		
94,96	GOA	2013, 2014	● Revisions to GOA CQE program entities, revise vessel use caps, allow purchase of small blocks																																																																																		
99	BSAI	2013	● BSAI freezer longline maximum length overall adjustment																																																																																		
85/83	BSAI/GOA	2011	● Sector allocations for Pacific cod																																																																																		
86	GOA	2010	● Fixed gear endorsement in GOA																																																																																		
78,85,88	GOA	2009, 2011	● Rockfish Program revisions; new program authorized																																																																																		
80,90,93,97	BSAI	2007-2012	● Vessel replacement and cooperative revisions																																																																																		
82,92 / 86	BSAI/GOA	2005-2010	● Latent licenses rescinded																																																																																		
62/62	BSAI/GOA	2009	● Revise the BSAI FMP description of the CV Operational Area and remove sunset date for inshore/offshore sector allocations of pollock and Pacific cod in GOA																																																																																		
62	GOA	2009	● IFQ B quota shareholders can fish on any size vessel																																																																																		
72	GOA	2008	● IRIU rescinded in GOA for shallow water flatfish																																																																																		
80	BSAI	2007	● Sector allocations and cooperative formation for 3 flatfish species, POP, and Atka mackerel in BSAI																																																																																		
68	GOA	2006	● Cooperative program for rockfish in central GOA																																																																																		
82	BSAI	2005	● AI pollock to the Aleut Corporation																																																																																		
2016 - Abundance-based halibut PSC																																																																																					
32. Maintain the license limitation program, modified as necessary, and further decrease excess fishing capacity and overcapitalization by eliminating latent licenses and extending programs such as community or rights-based management to some or all groundfish fisheries.	2008 - Trawl LLP recency in 2008 2009 - GOA fixed gear latent licenses																																																																																				
	33. Provide for adaptive management by periodically evaluating the effectiveness of rationalization programs and the allocation of access rights based on performance.	Ongoing – Regular program reviews for AM80, AFA, Halibut-Sablefish IFQ Pgm, others Ongoing Co-op Reports																																																																																			
34. Develop management measures that, when practicable, consider the efficient use of fishery resources taking into account the interest of harvesters, processors, and communities.	2008 - VMS exemption for dinglebars 2008 - Trawl LLP recency in 2008 2009 - GOA fixed gear latent licenses 2009 - GOA Pcod sector allocations 2010 - GOA rockfish program renewed Ongoing - MRA adjustments											Regulatory amendments related to this goal statement <ul style="list-style-type: none"> ● Modify monitoring and reporting requirements for BSAI cod freezer longliners ● BSAI fixed gear parallel fishery management measures ● Minor revisions to AFA, CDQ, IFQ, Rockfish Programs ● GOA pollock trip limits Other management actions related to this goal statement <ul style="list-style-type: none"> ● Permit fee authorization (all FMPs) 																																																																									
	35. Continue to incorporate local and traditional knowledge in fishery management.	2007 - AI FEP Ongoing – BS FEP																																																																																			
36. Consider ways to enhance collection of local and traditional knowledge from communities, and incorporate such knowledge in fishery management where appropriate.		Pending - Subsistence module in BSFEP																																																																																			
		2008 - Protocol approved Ongoing - continued outreach on BSAI salmon bycatch Ongoing - Council Outreach Committee meets periodically																																																																																			
8. Increase Alaska Native & Community Consultation	37. Increase Alaska Native participation and consultation in fishery management.											Other management actions related to this goal statement <ul style="list-style-type: none"> ● Community outreach and consultation policy adopted by Council in 2008 ● Community committee helps prioritize outreach (currently focused on BSAI salmon analyses) ● Website redesigned to include a rural outreach component 																																																																									

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017				2018				Cumulative Management Actions/Outcomes																		
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun		Oct	Dec																
9. Improve Data Quality, Monitoring and Enforcement (cont'd)	42. Encourage a coordinated, long-term ecosystem monitoring program to collect baseline information and compile existing information from a variety of ongoing research initiatives, subject to funding and staff availability.	Ongoing – Research priorities											<p>FMP amendments related to this goal statement</p> <table border="1"> <tr> <td>114/104</td> <td>BSAI/GOA</td> <td>2017</td> <td> <ul style="list-style-type: none"> Integrate electronic monitoring into the North Pacific Observer Program </td> </tr> <tr> <td>112/102</td> <td>BSAI/GOA</td> <td>2016</td> <td> <ul style="list-style-type: none"> Change observer coverage category exemptions for small catcher processors </td> </tr> <tr> <td>86/76</td> <td>BSAI/GOA</td> <td>2012</td> <td> <ul style="list-style-type: none"> Observer program restructuring </td> </tr> <tr> <td>73/77</td> <td>BSAI/GOA</td> <td>2008</td> <td> <ul style="list-style-type: none"> Remove dark rockfish from FMP, allow management by State of Alaska </td> </tr> </table> <p>Other management actions related to this goal statement</p> <ul style="list-style-type: none"> Annual refinement of observer data through the deployment plan Ongoing work to improve Catch Accounting System Discussion paper on VMS use and requirements Electronic monitoring is being developed as a tool for catch monitoring. Pre-implementation program approved for 2016. Council encourages research through annual research priorities, cooperates with North Pacific Research Board Council initiated and participates in Alaska Marine Ecosystem Forum, as well as maintaining other relationships with partner entities 	114/104	BSAI/GOA	2017	<ul style="list-style-type: none"> Integrate electronic monitoring into the North Pacific Observer Program 	112/102	BSAI/GOA	2016	<ul style="list-style-type: none"> Change observer coverage category exemptions for small catcher processors 	86/76	BSAI/GOA	2012	<ul style="list-style-type: none"> Observer program restructuring 	73/77	BSAI/GOA	2008	<ul style="list-style-type: none"> Remove dark rockfish from FMP, allow management by State of Alaska

Ongoing - Ecosystem SAFE																													
43. Cooperate with research institutions such as the North Pacific Research Board in identifying research needs to address pressing fishery issues.	Ongoing – Research priorities																												
	2015 Sablefish pot allowance Ongoing – Development of EM options Ongoing – Enforcement precepts, Enforcement committee activitie																												
44. Promote enhanced enforceability.	Ongoing - The Council maintains long history of cooperative management with all involved agencies and entities. The Council recognizes and works to achieve the shared goals of its many partners in stewardship of Alaska’s fisheries and its supporting ecosystems. Besides those partners listed in Objective 45, the Council maintains effective working relationships with the North Pacific Fishery Commission, Arctic Council, Bering Sea Fishery Advisory Body, Bering Sea Elders, among others.																												
45. Continue to cooperate and coordinate management and enforcement programs with the Alaska Board of Fish, Alaska Department of Fish and Game, and Alaska Fish and Wildlife Protection, the U.S. Coast Guard, NMFS Enforcement, International Pacific Halibut Commission, Federal agencies, and other organizations to meet conservation requirements; promote economically healthy and sustainable fisheries and fishing communities; and maximize efficiencies in management and enforcement programs through continued consultation, coordination, and cooperation.	Ongoing - Halibut Management Framework
