

## Halibut and Sablefish IFQ Fishery Community Outreach & Listening Session

Tuesday, June 5, 5:00pm – 6:30pm  
Kodiak Harbor Convention Center  
Pavilion Room

Join members of the North Pacific Fishery Management Council for an open conversation about **rural participation** and **entry-level opportunity** in the IFQ Fishery. The Council is interested in community feedback about the halibut and sablefish program's strengths, weaknesses, and opportunities for improvement over the short- and long-term.

This is an informal session for fishery participants and community residents to speak directly with representatives of the Council and its advisory bodies. The themes of this conversation and any proposals brought forward by stakeholders can shape the work of the Council and its IFQ Committee over the coming years. Please share your perspective!
