North Pacific Fishery Management Council
605 West 4th Avenue, Suite 306
Anchorage, AK 99501-2252

Dear Dave:

The Alaska Fisheries Science Center offers Dr. Steven Barbeaux for your consideration to serve on the NPFMC Bering Sea and Aleutian Islands Groundfish Plan Team. Dr. Barbeaux has strong quantitative skills and knowledge of flatfish, pollock, and Pacific cod, population dynamics. In addition, his authorship of Greenland turbot, Aleutian Island pollock, GOA Pacific cod SAFE chapters, and publications on fisheries dependent sampling, spatial modeling and acoustics will provide useful expertise and practical experience to the Bering Sea Aleutian Islands Plan Team. Steve has extensive knowledge of the observer program as well as at-sea fieldwork experience. Steve served as a chief scientist on several cooperative acoustic surveys in the Aleutian Islands. Steve's experience with the observer program and more recently with cooperative research projects will be an added benefit to the Team. The breadth of his experience from hands on stock assessment modeling to understanding fishery dependent and fishery independent sampling and their limitations, combined with his strong quantitative skills, should make Steve a valuable asset to the Plan Team. His CV is enclosed for your consideration.

We appreciate the opportunity to provide scientists in support of the NPFMC plan teams.

Sincerely,

Doug DeMaster
