

Small C/P Observer Coverage – Public Review Draft Analysis (May 2015)

New Information on Estimated Effect of Action on Observer Coverage Rates in Partial Coverage Category

Submitted to OAC by NMFS AKR, 5/29/15

	Est. Coverage rate – % of days covered	Source in Public Review Draft Analysis
2013 actual	14.8% (trips)	Page 69
Alt. 2B	14.6%	Text after Table 9, pages 69-70
Alt. 5B	14.5%	Text after Table 10, pages 70-71
2013 assumed 24% coverage rate	24%	
Alt. 2B	23.4%	Text after Table 11, page 71
Alt. 5B	23.1%	Text after Table 11, page 71

Notes:

1. Alt 2B is 79,000 round lbs per week. Under Alt 2B, three catcher/processors that processed in 2013 would have been eligible to move from full to partial coverage.
2. Alt 5B is 2.665 million round lbs per year. Under Alt. 5B, five catcher/processors that processed in 2013 would have been eligible to move from full to partial coverage.
3. The 2013 actual rate was percent of trips observed. The estimated coverage rates are percent of days. The estimates assume that the percent of days are equal to the percent of trips.
