Results from the 35th Eastern Bering Sea Shelf Bottom Trawl Survey in 2016

2016 EBS Shelf BT available ONLINE!

http://www.afsc.noaa.gov/RACE/groundfish/survey_data/default.htm

EBS Shelf Survey Charters

Eastern Bering Sea shelf (20–200 m)

FV *Alaska Knight*
2010 -present
7th year

FV *Vesteraalen*
2014 -present
3rd year

Eastern Bering Sea upper continental slope (200–1200 m)

FV *Cape Flattery*
2016
1st year

General

Length measurements (total 170,196)

Taxon	Number
walleye pollock	46,296
yellowfin sole	26,727
northern rock sole	18,528
flathead sole	17,745
Pacific cod	17,175
arrowtooth flounder	15,545
Alaska plaice	6,312
Alaska skate	4,249
Kamchatka flounder	3,081
Bering flounder	2,700
Pacific halibut	2,248
plain sculpin	1,967
Arctic cod	1,724
yellow Irish lord	1,050
great sculpin	749
rex sole	642
Sakhalin sole	523
Greenland turbot	505
starry flounder	448
bigmouth sculpin	352
Other fish taxa	1,630

General

Age structure collections in 2016

Length-stratified

Pacific cod	854
Yellowfin sole	884
Northern rock sole	526
Pacific halibut	560
Alaska plaice	488
Kamchatka flounder	524
Greenland turbot	335
Yellow Irish lord	256

Random

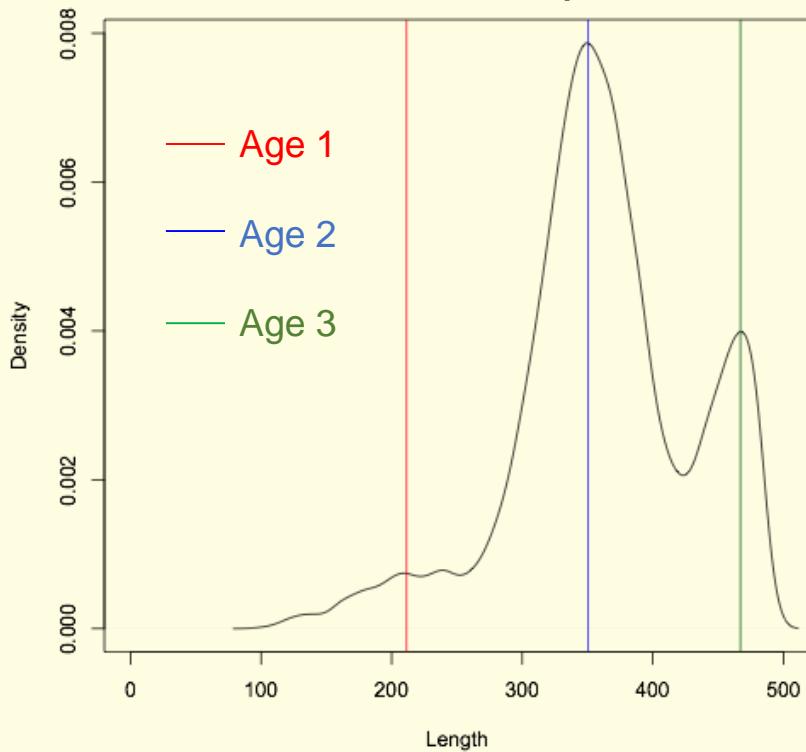

Walleye pollock ^{*10}	1,780
Pacific cod (NPRB)**	780
Arctic cod	Lots
Saffron cod	103
Flathead sole**	714
Arrowtooth flounder*	775

* Years sampled randomly
