SUBJECT:
Grenadier management
ESTIMATED TIME:
8 hours (all Groundfish Issues)

ACTION REQUIRED:
Initial review of Grenadier management
BACKGROUND:

In June 2012, the Council adopted a problem statement and set of alternatives to consider adding the grenadier assemblage into either or both of the Bering Sea/Aleutian Islands (BSAI) and Gulf of Alaska (GOA) Groundfish Fishery Management Plans (FMPs). The analysis outlines management measures that would need to be adopted for grenadiers if the Council recommended that grenadiers be added to the FMPs, and listed either "in the fishery" or under the "ecosystem component" category. The grenadier assessment authors, the BSAI and GOA Groundfish Plan Teams, and the SSC have all recommended that grenadiers be included in the FMPs where they would be subject to management.

The analysis was distributed to the Council prior to the meeting and is posted on the Council website. The Executive Summary is attached as **Item C-4(a)**.
